

Built to Save **Time**, Designed to **Scale**

One platform to automate posting, connect leads, measure performance, and increase social media growth

From

Cieso Hubots Pvt. Ltd

Who We Are

CIESO Cueo is a smart SaaS automation platform from Cieso hubots private limited designed to simplify social media and digital growth management. Built for businesses, creators, and teams, Cueo brings posting, lead handling, and performance tracking into one easy-to-use system.

What Problem We Solve

Managing social media today requires many tools, repeated tasks, and constant switching between platforms.

Businesses face challenges such as:

- ✓ Manual posting across multiple channels
- ✓ Scheduling content separately for each channel
- ✓ Missed leads and scattered customer inquiries
- ✓ Lack of a structured social media content calendar
- ✓ Time-consuming performance tracking and reporting
- ✓ Reduced productivity caused by repetitive daily tasks

Our Platform Vision

Cueo is built with a long-term vision to become a complete digital growth platform.

Our roadmap focuses on:

- ✓ Workflow automation across social platforms
- ✓ Centralized performance measurement
- ✓ Smarter content and engagement workflows
- ✓ Scalable systems designed for future expansion

About Upflow Hub

Upflow Hub is partnering company provides modern lead management CRM platform, built with the goal of helping businesses identify, manage, and convert real, high-value targets.

It empowers organizations with smart lead management technology that:

- ✓ Simplifies operations
